

WE ARE HIRING

Maintenance Manager

Electrical & Automation

Location

Doddaballapur, Bengaluru

Experience

5+ years

Employment

Full-time, permanent

ABOUT BRFM

BRFM India is an established wheat milling company producing atta, maida, sooji and other flour products, supplying leading national and multinational food companies. We have commissioned a new, fully automated Buhler PLC-controlled flour mill and are building a professional, systems-driven team to run it.

THE ROLE

Own all maintenance — electrical, automation and mechanical — at our new automated flour mill. Electrical and automation is the core of this role: you will be personally hands-on with power systems, drives and the PLC / SCADA system, and lead a team of electricians and fitters.

WHAT YOU WILL DO

- Maintain HT/LT substation, transformer, DG, MCCs, drives and PLC / SCADA.
- Plan and deliver preventive maintenance for all plant equipment.
- Lead breakdown response and root-cause analysis to minimise downtime.
- Manage spares, OEM service contracts and maintenance vendors.
- Drive energy efficiency and power factor.
- Lead and develop shift electricians and mechanical fitters; enforce safe working.

WHAT WE NEED

- B.E. / B.Tech in Electrical, EEE or Instrumentation (strong Diploma holders considered).
- 5+ years in maintenance in a continuous process plant (food, FMCG, dairy, pharma, cement, sugar, paper or similar).
- 4+ years hands-on with PLC / SCADA-controlled lines; HT/LT substation experience.
- 3+ years leading a maintenance team including mechanical fitters.
- Karnataka Electrical Supervisor Competency Certificate, or ability to obtain it within 6 months.
- Kannada and Hindi (spoken); English for reports.

GOOD TO HAVE

- Siemens / Allen-Bradley / Buhler PLC exposure.
- Food or grain processing experience.
- Experience commissioning or stabilising a new plant.

WHAT WE OFFER

- Work in a new, fully automated, modern flour mill.
- A professionally managed organisation with clear roles, systems and accountability.
- Growth with a company that is expanding its brands and capacity.
- Competitive compensation based on experience, and statutory benefits as applicable.

HOW TO APPLY

Send your CV with current CTC, expected CTC and notice period to hr@brfm.in, with **Maintenance Manager** in the subject line.

Shortlisted candidates will be contacted for a plant visit and interview.
